Discussions:

1. Manik asked us about what we have done for the previous week, and we told him we were considering which database design should we use, and had modified several interface mistakes.
2. We also discussed our reflections and several problems about our team's last week presentation.
3. Manik said he can do an example presentation to show us how we can do better next week, we can also show Manik the presentation draft if we finish next week.
4. Manik give us some suggestions about our website interface, about changing the background colour of the buttons.
5. Manik asked us to choice one member to do one 30-seconds pitch on next week's tutorial.
