Decision Making

- Discovering

- Architecture

- Planning

- Management (Agile - Scurm & Kanban)

- Technical (Django, bootstrap, jQuery)
Architechture design

Decision Making - Planning

| Week 2-3	Requirements discovery
Week 4-5	Optimize existing system (Code Refactoring) and add searching functions
Week 6-7	Build a prototype guide for National Captial Exhbition
Week 8-9	Improve the both visitor and admin system, add new functions
Week 10-11	Multi-language support
Week 12	Test, debug & pass onto clients

Reflection-- prepare for the next stage

- **Last semester --** Main problems that need impovement:

- Lack of skills

- Less communication

  -- More communication with clients and tutor.

- Low efficiency

  -- Srum -- Complete the weekly schedule ontime.

Communication

- Googledrive, GitHub
- Trello, Slack
- Tutorials, emails
- Team Activities

Thank you!
