Reflection from last semester.

What's good?

All the team members were happy with teamwork and the MVP delivered last semester.

What needs to improve?

The team needs to use slack and troller more often than last semester.
Project development should follow the agile process.
The team needs more communications with clients and tutors.
The team needs to keep sharping their skills.
Improve the decision log

What do people want to learn?
Front end, UI design, JS, jQuery, HTML, CSS, Django
